

Making a difference

Placed 11,000
people into
work last year

Supported
50,000 small
businesses

Enabled 10,000
financially
excluded people
to open bank
accounts

Helped
thousands of
businesses in
South Yorkshire
develop their
staff

Since 1991, A4e has successfully delivered services for individuals, organisations and government in the UK and internationally.

Our work focuses on three things: improving productivity and performance, tackling inactivity and inequality and driving social mobility.

We are experts in:

- providing training and employment opportunities for the unemployed
- supporting the growth of business
- delivering a range of financial inclusion services
- managing the delivery of public sector funding

In 2004 we became the first UK based company to export Welfare to Work expertise internationally through the Mehalev programme in Jerusalem, Israel. We now also operate in Germany, Poland and France.

We are committed to making a positive difference in every single thing we do; we never lose sight of our overall goal – **to improve people's lives.**

For more information on how A4e can help you, please e-mail Sara McKee
